

Resource Links	
USPTO IP Identifier	USPTO IP Identifier is a great starting point to: • Identify your IP assets by answering six brief questions • Learn basic information about their identified IP • Access additional information and links to helpful resources • Get tips on how to use your IP to strengthen your business
Patent and Trademark Resource Center (PTRC)	The Patent and Trademark Resource Center Program manages a nationwide network of academic, public, and state libraries that have been designated a Patent and Trademark Resource Center (PTRC). These resource centers provide the public with various trademark and patent assistance. PTRC librarians can: • Explain the application process • Demonstrate patent and trademark search tools • Assist to do historical research on patents and trademarks
Patent Pro Bono Program: Free patent legal assistance	If you're an inventor or small business owner, you may be eligible for free legal assistance in preparing and filing a patent application. The Patent Pro Bono Program is a nationwide network of independently operated regional programs that matches volunteer patent attorneys and agents with financially under-resourced inventors and small businesses to provide free legal assistance in securing patent protection.
Pro Se Assistance Center	The Pro Se Assistance Center provides outreach and education to applicants (also known as "pro se" applicants) who file patent applications without the assistance of a registered patent attorney or agent.

	Through increased assistance and resources for independent inventor and small-business communities, the Pro Se Assistance Center aims to increase the quality of pro se applications and assist pro se applicants with making informed decisions regarding their patent applications. United States Patent and Trademark Office (USPTO) employees cannot give legal advice. One-on-one assistance is available via video conference or telephone. Pro se personnel can meet with applicants to answer patent-related questions and assist in filing their applications. For more information about the Pro Se Assistance Center, visit the Filing a patent application on your own page.
Trademark Assistance Center	About the Trademark Assistance Center (TAC) TAC is the main support center for all customers, from first-time filers to legal professionals and experienced trademark applicants. Make sure you're familiar with and abide by our code of conduct when communicating with USPTO personnel. When you contact us, be ready to share: • Your application serial number or registration number • Your name, as well as your phone number or email address • The problem or issue that you're having We can't give legal advice. This includes: • Advising applicants on proper responses to USPTO office actions • Conducting pre-filing searches for potentially conflicting trademarks • Analyzing or pre-approving documents before filing • Advising applicants on examination issues, such as what are acceptable specimens and classification of goods and services • Advising about the administrative sanctions process

	Consider hiring a U.S.-licensed attorney if you need legal advice. Email: TrademarkAssistanceCenter@uspto.gov Phone Toll free: 1-800-786-9199 (press 1) Local: 571-272-9250 (press 0) International: 1-571-272-9250 (press 0)
Inventors Assistance Center	The Inventors Assistance Center (IAC) provides patent assistance and information to the public. The IAC is staffed by former supervisory patent examiners and primary examiners who are available to answer questions and to help you make filing a patent application simple and efficient. What the IAC can do for you • Answer general questions regarding patent examining policy. • Answer questions concerning necessary formats and items needed for your patent application. • Assist you with forms needed and with filling out the forms. • Provide you with general information concerning patent examining rules, procedures, drawings and fees. • Send you patenting information and forms via email or facsimile. • Direct your calls to appropriate USPTO personnel or USPTO.gov webpages, as necessary.
